

As is the norm this time of year things have become a bit busy. The fourteen of us present at the May meeting set about making plans for the month. And off we went.....

The Interclub Rally was a big success. A lot of fun was had at the dinner then everything went smoothly on the day. Dave came home with two more Bentalls than he took and lots of ideas were exchanged. There were visitors from the Mayor, Councillors and the local Federal member as well as plenty of public interest. The only whoopsie was Phil's eventful trip home. A small fire in the van (the thermos proved handy) followed by a flat tyre would have tested most of us. Phil soldered on. The following Friday and Saturday saw Ken, Carmen, Charlie, Dave, Ivan, Gary and myself set up at the Ag Trade Day. A good crowd Friday then a huge turn up Saturday. We had a good spot near the coffee and ice cream. Enough said. We asked for the same spot next year.

With barely enough time to reload (well, some of us did) the same crew plus Michael headed for Dow's Ck. Another great afternoon. Seriously, it is worth going to these things for the food and entertainment. Keep an eye out for the June/July offerings. On the engine front, Charlie continues to make refinements to the little Lister and has an AXC donor engine to keep him busy on his AXC. Hopefully this engine will also supply John Hanson from the BMP with the flywheel he needs.

My Waterloo Boy is finished but refusing to run and I accidentally (true) picked up a small Tange portable that will keep me busy for twelve months. Gary has another tractor. An A that fills a gap in his vast collection of As. This is a nice little original tractor that we are hoping to put in the Canegrowers coffee lounge at the Mackay Show.

Events
 Hatton Show 16th June.
 WARC Car Show Proserpine 7th July
 Mackay Hot Rod Show 13 14th July
 (to be ratified at this meeting)
 Old Wheels in Motion. Biloela 20 21st July

Two happy campers after a long day at Brandon, Ken and Carmen. In front is the pumper and Hornsby.

PIONEER VALLEY MACHINERY PRESERVATIONISTS SOCIETY INC.
