

Kyabram's White Truck Muster and Vintage Engine Rally

On the 16th & 17th March the showgrounds at Kyabram will be the place to be with the White Truck Muster and the Vintage Engine and Machinery Rally, supported by our local Campaspe Shire, with exhibitors from far and wide, showing off their treasured collections. The Vintage Engine Rally has been held for over 20 years and the numbers and diversity of displays grows each year. It is interesting to see the stationery engines all chugging away, also the vintage, veteran and classic tractors, cars and motorbikes all lined up with an air of dignity about them, as well as the majestic steam engines who are the gentle giants from the days gone by. The old feral vehicles are always a favourite and they gather many a photo and comment.

The younger generation appreciate seeing, and the older generation appreciate revisiting, the many working displays which include sheep shearing, the many blacksmiths in action, sleeper cutting, hay pressing, mini steam engines, working meccano display, plus many more, all displaying their trade with the old time equipment.

The memorabilia shed is always popular with different displays each year. A great deal of attention is given to the 'What Am I' table, with some amusing suggestions given. It is always interesting to listen to the exhibitors explain the workings of their, at times rare, displays.

The Kyabram White Truck Muster is run in conjunction with the Vintage Engine Rally. Many of the trucks and spectators travel from interstate just to be a part of the Muster. Keeping to the theme of the weekend, some of the trucks will be restoreable, and others will be magnificently restored. The owners of the trucks love talking to interested enthusiasts, and showing them the work that has been done on their 'pride and joy'.

Entry fee is \$5 per adult and children under 16 years of age are free.
