IDALIA QLD 4811

Dear Sir,

The members of the CHMC, myself and the executive wish to convey our gratitude to your organisation for financially supporting our successful Grant application to Border Trust that was facilitated by Red Tape Busters

The monies received from this grant will allow the club to erect fencing around our facility in Strezlecki Way to secure our on site machinery, tram, other equipment and club room. As we will now have that security we will be able to run our annual rally from our premises and save a considerable sum by not having to hire the Recreational Reserve. We will also be able to accommodate other clubs and functions that can generate income to support our efforts to raise enough money to erect workshop and storage space to enable our members to mentor and instruct young people in basic mechanics with the hope of giving them a positive direction in life and future employment.

Your generous support has allowed our commitment to our local community take a giant step forward in seeing this become a reality.

Yours sincerely

Bruce (Trig) Tregilgas
President
Corryong Historical Machinery Club Inc
